27 September 2019

Dear Sir/Madam,

Re: Development Application: Residential Land Lease Community (Over-50's Lifestyle Development), 255, 255A, 255B & 19 Picketts Valley Road, Kincumber

Background

A Development Application (DA) is being prepared for lodgement with Central Coast Council (CCC) by the proponent, Living Choice Australia Pty Ltd, in respect of the proposed project, as identified above. As part of the assessment process for this DA, CCC has directed inclusion of a Social Impact Assessment (SIA) and an Economic Impact Assessment (EIA) in respect of potential effects of the development. This firm has been engaged to prepare the SIA and EIA, and conduct associated consultation/engagement to inform those reports.

Description of proposal

The site comprises:

- Lot A DP 449600 (255 Avoca Drive, Kincumber);
- Lot 2 DP 976799 (255A Avoca Drive, Kincumber);
- Lot 3 DP 976799 (255B Avoca Drive, Kincumber); and
- Lot 9 DP 976799 (19 Picketts Valley Road, Kincumber.

The total site area is 24.176 hectares.

Living Choice Australia Pty Ltd proposes development compliant with the current zoning (E4 Environmental Living) under the Gosford Local Environmental Plan 2014, which permits development as a caravan park. This includes development of manufactured homes on such a site, which is the form that the proposed residential land lease community (over-50's lifestyle development) will take[1]. The development proposal comprises 210 sites and supporting, service and related infrastructure, and community and social facilities for the use of residents.

Detailed planning for the site is being completed, and will be available for consideration during the public exhibition stage of the DA process, following lodgement of the application. 25% of the site will be retained as natural bushland. Total proposed open space is around 67% of the site. The proposed over-50's lifestyle development dwellings are to be designed to appeal to the premium end of the home market and to complement the surroundings.

[1] Consequent to definitions contained in State Environmental Planning Policy No.21 – Caravan Parks, the Local Government Act 1993 and relevant Regulations.

The DA and the development itself reflect several years of detailed planning work, as may be expected of a project of this scale and quality, the scope of which is indicated by the list of contributing planning elements presented below.

Consultation process

In accordance with the CCC directive identified above, this letter provides notification of the DA process and an invitation for you to initially address the application and identify matters relating to it, which you believe require consideration in the assessment process as it progresses. Should you wish to provide comment on the application, you are invited to do so via either of the following means:

> ***By email:***
> Email address: mark@mseag.com.au
> **Please note that this is our preferred means of contact, as it provides an accurate record of engagement and will permit prompt response to any email received, as may be required.**
>
> ***By mail:***
> Aigis Group
> FAO: Mark Sargent
> 13 Debs Parade Dudley NSW 2290

You are requested to respond to this invitation by **5.00pm, 7 October 2019**, should you wish to do so. Please note that this is an initial step in the engagement process. Importantly, there will be subsequent opportunity to comment on the proposal in the context of the entire DA documentation, once it is lodged with Council and placed on public exhibition, should you wish to do so at that stage. At that stage all relevant diagrams and site plans will be available for your perusal. Should subsequent consultation be deemed as required, this office will advise accordingly.

Please note that material from any response you provide will be reported anonymously throughout the DA process, to protect your privacy.

Yours sincerely
Aigis Group
